**INJAZ CIVIL SERVICES**  
Creating Landmarks for Generation

In 1993 **Injaz Civil Services Ltd. Co.** was founded in **Rabigh**, Kingdom of Saudi Arabia focusing on Trading, Maintenance and Civil Construction, as major business activities.

**Injaz Civil Services Ltd. Co.** awarded projects contracts vary from residential and industrial facilities. The subject projects were built per the latest state of art following different local and international standards such as: ISO 9001, American Standards, British Standards, Saudi Aramco Engineering Standards (SAES's) and Saudi Standards, Metrology and Quality Organization SASO. Injaz has a strong and experienced operational and management team. Injaz has strong financial backup through its investors and has the capacity to provide project financing. Its achieved customer satisfaction throughout commitment to QA/QC, Health; Safety & Environmental established programs, timeframe execution schedules, good communication and talent taskforce.

The company operations drastically increased within the past 18 years and become recognized as one of the local leading contractors in Makkah, and Dammam districts. Currently, our diverse portfolio encompasses oil and gas, petrochemical and government services. We have projects in several locations Kingdome wide. No matter how challenging a project or how remote its location, chances are **Injaz Civil Services Ltd**, can handle it. That's because we bring a supreme combination of knowledge, skill, experience, and customer commitment to every job. While executing projects, we are committed to share local economies growth and improve the quality of life style for communities and people.

# WHO WE ARE

Injaz Civil Services operates through Seven core service divisions: Heavy Equipment Services, Waste Management and Liquid Waste Disposal Services, Scaffolding Solutions, Civil Works, Heavy Equipment Rental, Sandblasting & Panting, and Manpower Supply. Each division is staffed by trained professionals and governed by strict internal safety and quality protocols aligned with Saudi regulatory standards.

Our work spans Refineries, power plants, petrochemical facilities, cement manufacturing sites, water treatment infrastructure, commercial developments, and large-scale construction projects.

- ➔ ZERO-COMPROMISE SAFETY CULTURE
- ➔ MULTI-DIVISION CAPABILITY UNDER ONE ROOF
- ➔ DEEP KNOWLEDGE OF THE MARKET

INJAZ CIVIL SERVICES.  
Creating Landmarks for Generation

# WHERE WE OPERATE

Headquartered in Dammam, Eastern Region, INJAZ operates across the Eastern, Makkah, Madinah and Southern Region of Saudi Arabia, with active project presence in Rabigh, Jeddah, Yanbu Jizan, and beyond. As Saudi Arabia accelerates its Vision 2030 infrastructure agenda, INJAZ is positioned to scale alongside the Kingdom's most ambitious development programmes.

Our vendor registrations with leading industrial operators confirm our standing as a qualified, trusted, and compliant contracting partner at both regional and national levels.

# OUR VISION

TURNING VISION IN TO REALITY

Injaz Civil Services Ltd, vision is to be one of the Saudi Arabia and GCC Contractors leaders in Civil, Oil & Gas and Petrochemical Projects business throughout our unique services and talent staff. To become the most trusted integrated contracting partner in Saudi Arabia — recognized for operational reliability, safety-first execution, and the capacity to deliver complex, multi-discipline project support at scale across construction and industrial sectors.

We envision a future where INJAZ is the first name contractors, developers, and industrial operators think of when they need dependable on-site support — not because we are the largest, but because we are the most reliable.

**INJAZ CIVIL SERVICES.**  
Creating Landmarks for Generation

# OUR MISSION

## BUILDING TOMORROW'S INFRASTRUCTURE

Injaz Civil Services Ltd is one of Saudi Arabia and Middle East fast growing Maintenance services and Construction Company. We provide varieties of services through our head office in Kingdom of Saudi Arabia – Rabigh to pursue clients’ satisfaction in energy industries. We tackled each challenge with reliable and innovating solutions. We empowered and entrust our multi-local teams in Rabigh, Yanbu, Dammam and other locations to provide sustainable development for our company and for the communities where we serve. Our wide range of services will start from engineering studies to turnkey projects.

Our Mission is to provide client satisfaction throughout different varieties of Engineering, Fabrication, Installation, Construction and Maintenance taking into consideration our Arab & Islamic ethics.

Injaz is committed to:

- Provide high quality services and ultimate end product.
- Provide environmentally friend and safe work place to employees’ and clients.
- Capitalize the company assets by selecting the best in the market manpower, material, tools and equipment.
- Contribute positively to the local community by developing economy.
- Provide high quality goods either from our end or through our success partners.
- Optimize our resources and maximize our clients’ profits in projects management, commitment to timeframe work schedules and high-quality projects execution plans.

Encourage carrier growth and empower our employees’ partners, coworkers and suppliers to achieve customer satisfaction.

# WHAT WE STAND FOR

Behind every mission we support is a team that takes ownership. We don't show up to fill a roster – we show up to solve a problem. Our team that in Refineries, construction and industrial environments, the cost of failure is not just finance, it's human. That understanding shapes everything we do. We believe that great contracting is not just about what gets built. It is about how safely, how efficiently and how reliably it gets done.

- We show up prepared — not just present
- We prioritize your site safety as seriously as our own team's welfare
- We communicate clearly, document properly, and deliver consistently
- We scale with your project — from mobilization to final handover
- We build relationships, not just contracts

# COREVALUES

Our core values guide how we operate, deliver services, and build long-term relationships, ensuring safety, quality, reliability, and professionalism across every project.

01

## **Safety First Approach**

Safety is embedded in our operations, ensuring secure work environments across all project sites.

02

## **Integrity & Transparency**

We maintain honest communication and ethical practices in all our client and partner engagements.

03

## **Quality Workmanship**

We deliver reliable and high-quality work aligned with industry standards and project requirements.

04

## **Client Commitment**

We focus on understanding client needs and delivering solutions that meet project objectives.

05

## **Compliance & Standards Excellence**

We strictly adhere to Saudi regulations and industry standards across all services.

++++

# WHY CHOOSE INJAZ

01

## **Proven Track Record with Saudi Arabia's Industrial Giants**

We have delivered services to some of the most demanding industrial operators in the Kingdom

01

## **Zero-Compromise Safety Culture**

Safety is embedded in our operations, ensuring secure work environments across all project sites.

01

## **Multi-Division Capability Under One Roof**

From scaffolding to civil works, equipment rental, fire safety systems, and skilled manpower — we are a one-stop contracting solution for complex project needs.

01

## **Scalable Workforce & Equipment Fleet**

Whether a project requires 10 specialists or 100+ multi-discipline workers, INJAZ can mobilize at the required scale with the right equipment and operators.

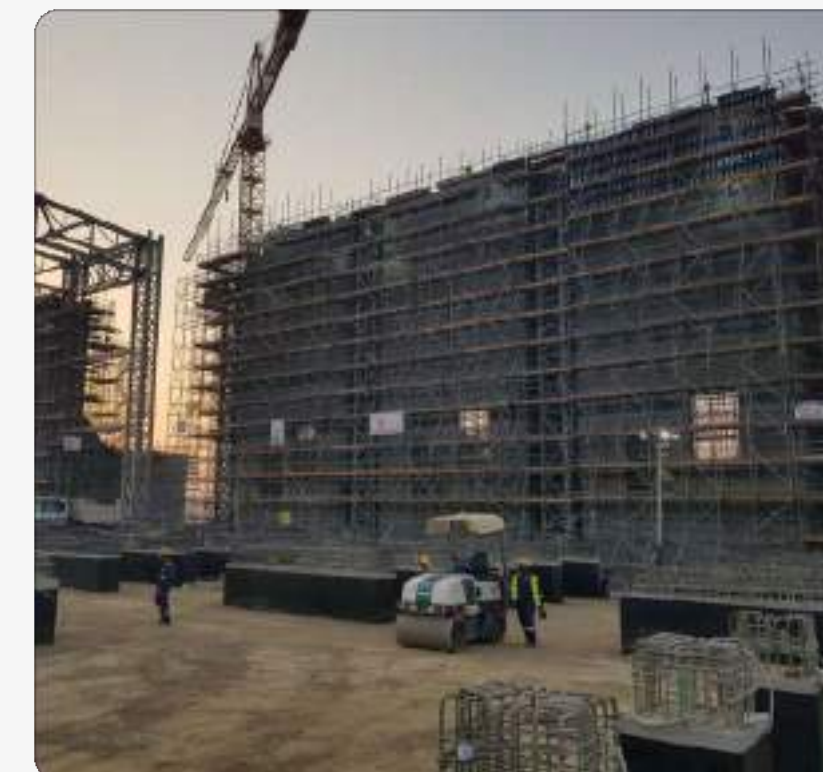

# OUR SERVICES

# SCAFFOLDING SOLUTIONS DIVISION

Scaffolding is the backbone of INJAZ capabilities and the service that first established our reputation across Saudi Arabia's industrial landscape. We provide complete scaffolding solutions designed to support construction, industrial, and maintenance activities — with safety and compliance at the core of every system we design, erect, and maintain.

Over the years, we have erected and dismantled millions of cubic meters of scaffolding across some of the Kingdom's most complex and hazardous operating environments — including live refineries, power plants, cement facilities, and petrochemical complexes.

## SCOPE OF SERVICES

**01**

Erection and dismantling of scaffolding systems

**02**

Customized scaffold design and planning

**03**

Scaffolding rental solutions

**04**

Industrial and commercial site support

Safe, compliant, and project-ready scaffolding solutions designed to support complex construction and industrial environments

# SCAFFOLDING SOLUTIONS DIVISION

What sets our scaffolding division apart is not just the volume of work we deliver. It is the discipline with which we deliver it. Every scaffold is inspected before handover, every erection team is briefed on site-specific hazards, and every scaffold tag is maintained to ensure ongoing structural integrity throughout the access period.

12

# CIVIL WORKS DIVISION

INJAZ Civil Works Division provides reliable, on-the-ground civil execution support to construction and industrial projects across Saudi Arabia. We understand that civil works — the groundwork of every project — demands both technical competence and a strong commitment to timeline management. Delays here create delays everywhere downstream.

Our civil teams are experienced in executing works across active industrial environments, coordinating with other trade contractors, and adapting to the dynamic conditions of complex project sites.

## SCOPE OF SERVICES

01

Minor and medium-scale civil works across construction and industrial sites

02

Repair, modification, and rehabilitation of existing structures

03

Structural, concrete, and masonry works executed to specification

04

Execution aligned with approved engineering drawings and standards

Reliable civil support services that enhance site readiness and ensure smooth project execution.

# CIVIL WORKS DIVISION

Our civil supervisors are experienced in reading and executing from approved engineering drawings, and in coordinating with client HSE teams to ensure all works are carried out safely and to the required quality standard.

14

# HEAVY EQUIPMENT RENTAL DIVISION

Equipment downtime is one of the most costly and disruptive risks in large-scale construction and industrial projects. INJAZ Heavy Equipment Rental Division was built to eliminate that risk — providing well-maintained, operationally ready heavy equipment across Saudi Arabia, with flexible deployment terms and experienced operators available as needed.

Our equipment fleet is maintained under a preventive maintenance programme that ensures every unit dispatched to a client site is in full operational readiness. We do not send machines that might work. We send machines that will work.

## SCOPE OF SERVICES

**01**

Preventive maintenance and operational support throughout rental

**02**

Equipment supplied with or without experienced operators

**03**

Rental of construction and industrial equipment

**04**

Flexible rental terms with full safety compliance documentation

Well-maintained equipment solutions that reduce downtime and improve site productivity.

# HEAVY EQUIPMENT RENTAL DIVISION

We work with project managers to understand equipment utilization patterns and schedule deployments to maximize efficiency and minimize idle time. Our solutions are designed to reduce project downtime, lower operational overhead, and keep your site moving.

16

# TRUCK CRANE

## POWERFUL LIFTING PERFORMANCE

- Reliable lifting capability for industrial and construction operations.
- Stable boom structure ensures smooth and efficient handling.
- Suitable for shutdowns, material handling, and onsite support.

## EFFICIENT OPERATIONS

- Fast setup and easy maneuverability improve productivity.
- Advanced hydraulic systems provide precise movement control.
- Designed for safe and reliable daily operations.

## OPERATOR COMFORT & SAFETY

- Comfortable cabin with enhanced visibility.
- User-friendly controls for better operational efficiency.
- Built to meet industrial safety standards.

# LIQUID WASTE DISPOSAL

INJAZ provides reliable liquid waste disposal services using a fleet of tankers with various capacities. Each tanker is equipped with an independent pump system to efficiently remove and transport different types of liquid waste from tanks, ponds, and other facilities.

18

# SOLID WASTE DISPOSAL

INJAZ delivers efficient solid and food waste disposal services across the Kingdom, supported by the largest fleet of waste-handling equipment in Saudi Arabia. We provide durable containers ranging from 1.7 to 5 cubic meters for daily food waste from kitchens, mess halls, offices, and camps, along with 6, 8, 12, and 20 cubic meter containers for bulk solid waste and construction debris.

Our operations ensure safe collection, hygienic handling, and compliant transportation of organic and general waste to approved disposal facilities. INJAZ maintains long-term industrial partnerships, including its ongoing contract with Petro Rabigh Refinery, delivering reliable waste management services throughout the Kingdom.

# SANDBLASTING & PAINTING

Fire INJAZ provides specialized sandblasting, surface preparation, and industrial coating services for refinery storage tanks, process vessels, and critical steel structures. All works are executed in accordance with ISO 8501 surface preparation grades and ISO 12944/ISO 16961 coating system requirements, ensuring long-term corrosion protection in harsh petrochemical environments. Our scope covers complete abrasive blasting using certified garnet media to remove rust, mill scale, and old coatings, followed by application of high-performance epoxy, polyurethane, and tank-lining systems designed for crude oil, hydrocarbons, and chemical service. INJAZ maintains strict QA/QC controls including surface profile measurement, DFT (dry film thickness) verification, holiday testing, and environmental monitoring throughout the coating cycle. With trained coating inspectors, confined-space safety compliance, and refinery-grade equipment, INJAZ delivers durable, specification-ready tank coating solutions that extend asset life, reduce maintenance downtime, and meet the highest operational and HSE standards.

## SCOPE OF SERVICES

01

Clean Surface. Strong Shield

02

Blast. Coat. Protect. Strength Starts at the Surface.

03

Protection You Can See. You Can Trust

04

Clean Surface. Strong Shield. Pure Power in Every Coat.

Precision Sandblasting for Superior Surface Preparation, Corrosion Protection That Extend Equipment Life.

# SANDBLASTING & PAINTING

Expert sandblasting for exceptional surface preparation, supported by high-performance corrosion protection to enhance equipment durability and long-term integrity. INJAZ also provides professional industrial painting using advanced epoxy and polyurethane systems, delivering a smooth finish and reliable protection for refinery tanks and steel structures.

# MANPOWER SUPPLY DIVISION

The right people, in the right place, with the right skills and the right attitude — this is what INJAZ Civil Manpower Supply Division delivers. We supply skilled, semi-skilled, and general manpower to support construction, industrial, and maintenance operations across Saudi Arabia, with a strong focus on workforce quality, safety competence, and deployment reliability.

Our manpower pool includes scaffolders, site supervisors, scaffold inspectors, civil workers, equipment operators, and general site support staff — all recruited, vetted, and induction-trained before deployment. We do not send a headcount. We send a capable team.

## SCOPE OF SERVICES

**01**

Supply of skilled and semi-skilled manpower

**02**

Technical, operational, and site support staff

**03**

Short-term and long-term workforce deployment

**04**

Project-based and shutdown-specific manpower deployment

Flexible and dependable manpower solutions aligned with project timelines and operational needs.

ERIN SCHULTE (IMO 9439814) is classified as a Chemical/Oil Products Tanker, designed to transport a wide range of refined petroleum products and industrial chemicals such as gasoline, diesel, fuel oil, naphtha, kerosene, and various liquid chemical cargoes.

INJAZ provides specialized loading and unloading support for ERIN SCHULTE at Petro Rabigh Port, ensuring safe and efficient handling of oil products and chemical cargoes in compliance with refinery HSE standards. Our services include:

- Vacuum loading and offloading of liquid hydrocarbons and chemical waste
- Bulk transfer operations for refined oil products
- Environmental-compliant chemical handling
- 24/7 port-side operational support for tanker turnaround

With more than 18 years of experience serving Petro Rabigh, INJAZ ensures that vessels like ERIN SCHULTE receive fast, safe, and fully compliant cargo-handling services, supporting continuous refinery operations and maintaining the highest industry standards.
